

OLD SOL WILL TURN HIS BACK ON MONTREAL

When the critical and most interesting point of Saturday morning's nine o'clock lecture is reached, when the Duties have been read twice and put away, and when students in the back row have pulled out their watches for the first time to find out when the session will be over, Old Sol will turn his back on Montreal, and the campus will be in a state of semi-darkness. The moon, contrary to her usual procedure, will make herself apparent at an early hour of the morning at an hour when one expects her to sink quietly into oblivion.

The climax will be reached at twenty minutes after nine o'clock. At that time only five per cent of the sun will be visible, and it is quite possible that people in many parts around the city will be forced to use electric light to tide them over the period of quasi-darkness. Shortly

after twenty-five to ten, all will be over, and the lights giving orb will be once more on sentry duty, that is, if some dirty black cloud does not force him into the farthest recesses of the celestial expanse.

Smoked glasses will be brought out from the old cupboards; then thousands of eyes will be staring upwards with wondering admiration at the infrequent wonder, an eclipse of the sun. Those who do not go to the trouble of getting smoked glasses will be running considerable risk, as looking at the sun for any length of time with the naked eye is a dangerous practice.

To-morrow the Daily will print authoritative statements concerning the eclipse, giving the exact data in addition to expert opinion. If possible plans of what is to take place will be presented to Daily readers.

INTERESTING ADDRESS TO COMMERCIALS

Speaker Was Mr. Jones of Cement Co.

GOOD MEETING
The Subject of Excellent Speech Was the Tariff

A very large number of the members of the Commercial Society were present last night to have Mr. Jones speak on "The Tariff" at the regular semi-monthly meeting of the society. After the minutes of the meeting had been read, the President L. Mitchell introduced the speaker. A feature of the meeting was the fact that the fair sex was very well represented.

Mr. Jones stated as the outset that he did not intend to talk on the Tariff from a political standpoint, nor did he intend to speak on any particular Tariff. Mr. Jones went on to say that he thought that the tariff was a failure because it affected everybody but the rich. The speaker took actual instances in the tariff to prove his point. The big manufacturer was able to import goods at a low duty, while the individual as a buyer has to pay the duty, and the manufacturer will not buy from Canadian producers. The Canadian producer, with no big production cannot compete with the American firms in prices.

Mr. Jones went on to say that a uniform tariff would protect labor and would impose an equal burden on all persons.

The sales tax is an unwise measure stated the speaker. It adds a two dollar tax on everybody in the country. Corporation income tax could be also abolished if a uniform tariff were introduced. Moreover because of the manner the tax is computed, the corporation pays the so-called 10 per cent tax but actually a tax of over 11 per cent.

In the question of preference, the speaker declared that the preference should be given on the labour employed. German manufactures can send their goods to Britain to be finished and then obtain the preference of a third off the tariff, when most of the labour on these goods is expended in foreign countries.

Mr. Jones in concluding said that he would like to see a tariff that would benefit all and not a chosen few.

The president thanked the speaker on behalf of the members of the Society. He also invited any member to propose any question he would like the speaker to answer. Several took advantage of this opportunity and Mr. Jones' answers further illuminated his address.

The President then called upon Prof. Sugars, head of the School of Commerce. Mr. Sugar said he was glad to be present at the address and meet Mr. Jones as he had been present also on the last occasion when Mr. Jones spoke to the Society. Dr. Villard then made a few remarks and in his quiet humorous way remarked that one thing he drew from Mr. Jones remarks that the public was always the goat. Dr. Villard said that there were many good lessons to be taken from the address.

The President then called for suggestions as to whether a dance or a banquet would be held by the Society. It was finally decided that the function would take place in the form of

SENIOR POLO TEAM AT THE NOVICE MEET

Game is to be Played Under Intercollegiate Rules

EXHIBITION RACES
Not Much to Chose Between Either of the Teams

The McGill mermen are preparing for a stiff game next Thursday night against the "Old" boys. The pace will be very fast as the game is to be played under intercollegiate rules which allows substitutes to be put on during the course of the play. Aside from this a number of the "Old" boys and also the regular fellows will give exhibition dives and swims between the regular events. These should be of great interest to the new fellows and give them an idea of intercollegiate meets.

The "Old" Boys team will have the following men upon it: Harold Fiske, Captain, "Curly" Walters, Jim Ross, Roy Ross, Maurice Brucker, W. H. Laidley, Grahame Browne, Ross Bastable and Curtis Wells. This gives the team plenty of substitutes and there is no danger the graduates will fall down on the job.

The former captain of the 1923 intercollegiate championship team, Grahame Browne is to do his stuff for the old boys and if past performances have anything to say for him it will be done well. Maurice Brucker was one of the two M.A.A.A. teams that won intermediate Dominion championship in 1918 and 1919. He also played on the McGill Senior Intercollegiate teams in 1921 and 1922.

W. H. Laidley was on the McGill Swimming Team with Harold Fiske and Jim Ross, when it toured the United States in 1921. He was former holder of the intercollegiate breast-stroke record. He played for the M. A. A. A. intermediates in 1918, and was also on the McGill Senior Team from 1920 till 1922. He plays now for the M. A. A. A. Senior team.

Varsity had Curtis Wells playing on its team from 1920 till 1922. He was a former intercollegiate swimming champion and was on the U. of T. swimming teams in 1920 and 1922. Ross Bastable was a former McGill man having played on the senior polo team in 1920 and 1921.

These men have been at the practices quite frequently and are in the top of form. All those who are to swim on Thursday should try their best to turn out for practice in the next few days as they will be the last before the meet.

Lipstick? What do you mean? She has teeth like the stars?
—Gaff of the Staff,
Milton College Review.

Have you ever seen the prof. who in his hand with that distinctly "seven came a levin" motion?
—The Lyre, Minnesota Daily

"I had an early ambition to be a good writer," said the forger as they led him from the court room, "and now I am beginning my first long sentence."
—Ex.

a banquet and a Committee of five was chosen to arrange the affair.

STAGE SET FOR PLUMBERS' BALL

Starts Promptly at 8.30 This Evening

The much talked of Plumbers' Ball takes place at 8.30 to-night in the Macdonald Engineering Building. Nothing has been left undone. The interior of the building has been so decorated that even the professors have difficulty in recognizing it. Students from freshmen to seniors tip toe past the drafting room, popularly used for examinations lectures and other tortures and which has been transformed in order to prepare for the dance.

The two hundred and eight odd drafting desks in the first-year drafting room were all removed yesterday afternoon and the place was soon transformed into a modern ball-room under the capable hands of the architects, electricians and apprentice plumbers.

The bare white walls have been magically changed with the aid of yards of purple and gold crepe paper. Every department in the faculty is represented by huge crests hung at vantage points in the room. Illumination is provided by six large lanterns suspended from the ceiling. A novel form of announcing the dances is promised.

The orchestra will be placed in the centre of the hall upon a raised platform so that the symphony strains may be heard in all parts of the room.

Everybody is reminded that the dance will commence at 8.30 sharp. The committee wish to express their gratitude to Dean Mackay and members of the faculty, who have at all times shown the greatest interest.

CROSS-WORD PUZZLE WON BY JUNIORS

Miss Languedoc Best Impromptu Speaker

SOCIETE FRANCAISE
Speeches Show Decided Improvement Over Previous Years

Miss Adele Languedoc of R. V. C. was awarded the prize for the best impromptu speech in the contest held by the Societe Francaise yesterday afternoon in the R. V. C. Common Room. Ten orators entertained the audience with dissertations on subjects varying from "Powder" which Miss Languedoc dealt with every eloquently, to such serious topics as "Capital Punishment" which Miss L. Sorlier managed to instil with a good deal of humour by her device of holding a debate with herself on the question.

The second year speakers distinguished themselves by their humour and satire, and the speech by Miss Brock of first year also caused much amusement. To Miss Barre fell the familiar subject of "Co-education," while Miss Lyman dealt with the almost equally popular subject of "Canadian Winter Sports." "Sugar" was the subject drawn by Miss Perrin and Miss Segal spoke on an article almost as common, namely the lowly Ford, which was for once taken seriously. "The Weather," Miss L. Millar spoke, was most appropriate for the day. The President Miss Deslauriers spoke on "La Mode," mentioning various changes in fashion which have occurred as far back as the could remember, and Miss Levy spoke on the value of the Societes of R. V. C., mentioning the specific benefits to be derived from certain societies as well as the general value of the Societes as a whole.

After the speeches the members of each congregation took a copy of a French cross-word puzzle and after half an hour of tense excitement the Juniors emerged victorious from the fray with the correct solution. Competition was keen, and the other years had almost completed the puzzle.

Prizes were awarded by Madame Furness, who congratulated the speakers on their ability and courage and remarked on the fact that the speechable showed much less hesitancy than was evident in those of the last two years. The prize was given for the best speech from the point of view of both fluency in French and material. Visitors at the meeting were Mrs. Garside, Madame Furness and Mlle. Framery.

BASKETBALL TEAM READY FOR VARSITY

First Intercollegiate Game Scheduled for To-night at 8.45

M.H.S. GYM.
Both Teams in Condition and Close Match is Expected

The stage is all set for the opening of the intercollegiate basketball season here to-night when the Toronto Varsity team meets the McGill seniors in what promises to be a game replete with fast passing, deadly shooting and a brand of basketball of the highest standard. The visiting quintette will have a fast aggregation of players and can be depended on to go at full speed from start to finish while the local boys are determined to wipe out their defeats of last year and come through with a win to-night. The game will take place at the Montreal High School Gym, 8.45 p.m., and a preliminary has been arranged between the McGill Intermediates and the North Branch V. M. C. A. This intermediate game is sure to produce some pretty basketball and will be well worth watching. It will take place at 7.45 p.m. Mr. Gray, the physical director of the High School will referee the first game while Pat Manley, well-known in intercollegiate basketball will officiate at the main attraction.

Coach Van Wagner put his men through their last practice on Wednesday evening. The last few workouts have been light as the coach is taking no chances on having his men hurt before the big game. They have been working on passing and shooting at the same time perfecting their team work. The personnel of the team has been announced as follows:—Forwards:—Turpel (captain), Philpotts, Boucher. Centres:—Manson, Brown, Guards:—Hilton, Quackenbush and Rafalovich. This team will have a mixture of old-timers and new men and with the experience of Manson, Turpel, Philpotts and Hilton should go far toward winning. Turpel the captain of the team is playing in the best form at the present time. In Philpotts and Boucher he has two forwards who are fast and tricky and hard workers. Philpotts played with the seniors last year and has a cool head to be depended on in an emergency. Bouchard although this is his first year as a regular is showing wonderful form. He is one of the fastest men on the team and is also a good shot.

In Art Manson, at centre the team has their strongest point. The plays are built up around him and his all-around knowledge of the game is invaluable to his teammates. "Chief" Brown is an able substitute at centre and is in the best of form. On the defense George Hilton has returned from his enforced absence and playing a steady dependable game. His shooting is improving all the time and with Quackenbush and Rafalovich to assist him should prove a stonewall to the visiting forwards.

On the other side of the line however they are awaiting the game with quiet confidence. Their team of last year which lost the championship to Queens by one point has lost three men. Potter, Hutchinson and Burgess are the only veteran members. McLean, who will play forward with Potter was a basketball star at Varsity two years ago while Ross, who will probably pair with Burgess at guard is a new man. The Blue and White made a trip to the States but were not very successful. However the same might be said about the McGill team. Which ever team comes through to victory to-night will have to go at top speed from start to finish and the spectators are sure to see a real game. Rooters are needed and No 16 coupon will admit anyone.

JUNIORS PREPARE FOR GAME SATURDAY

Tommy Arnold is Elected Captain

The Junior Hockey Team on Wednesday elected Tommy Arnold captain. He and Murchison, the manager, handled the practice at the Hollow Rock last night, and gave the team a stiff workout in preparation for Saturday's game against St. Lambert. Most of the practice consisted of passing in fast attack and goal form was shown in this department.

Stopping up practice was carried out for a short time, and then shooting at goals. Some hot ones were put in on Honey, the star goalie, and mostly blocked in promising style.

Murchison was optimistic about the chance of the game on Saturday. This game is needed to break the spell of bad luck which has dogged the team so far this year. It will be remembered the last two games were lost by narrow margins. It must be admitted too that the support has not been very encouraging, and a good turnout Saturday at the Mount Royal Arena would go far towards a victory. The chief difficulty is, of course, keeping the man in condition in spite of the deadening influences of the grind of studies, but this is unavoidable and combated by the men themselves as much as possible.

The following men were at the practice last night. Tommy Arnold captain, Murchison, manager, Slater, Dowling, Quilhan, Taggard, Ironstone, Percival, Riley, Honey, and Bowles.

ARTS DINNER AT MT. ROYAL HOTEL

Tickets Now On Sale For Dinner on January 29th.

The tickets for the Arts Dinner were placed on sale yesterday, and the managing Committee was greatly encouraged by their rapid sale, although Freshman and Sophomore years have not yet responded appreciably. No efforts have been spared to make the banquet a success. An attractive salon has been chosen, in which the students will enjoy their own genial company in the most agreeable atmosphere.

The principal speaker of the evening will be R. L. Calder, K. C., the famous lawyer and orator. Sir Arthur Currie, Dean of a Mackay, and De Leacock will also address the students. The toasts will be proposed by students, and will be very few in number. Many of the popular professors have promised to attend, and the Committee hopes to enable the students to meet their socially, possibly by sitting at the students' tables.

R. V. Fortune, President of the Arts Undergraduate Society, will officiate as emcee. The usual problem of formal or informal attire will be left to the pleasure of the students. Dinner jackets are not stressed, by any means.

Students in Arts are most emphatically advised to make their reservations for next Thursday as soon as possible. This can be done by seeing the class president or representative.

LAWYER WILL ADDRESS THE MACCABAEANS

"Have The Jews a Mission?" is Subject

MICHAEL GARBER

Maccabean Debaters For Inter-Menorah to be Chosen

"Have the Jews a mission" is the rather interesting subject that Michael Garber, B.A., B.C.L., has chosen to address the Maccabaeans at their next meeting. The Circle will meet this Sunday afternoon at three o'clock in the afternoon, in the Lounge room of the McGill Union.

Mr. Garber, who is a McGill graduate, is a well-known Montreal lawyer. Moreover his handling of various subjects of this sort in the past has always been successful. Maccabaeans are assured of an excellent talk.

The question as to whether the Jews have a mission in life, has always proved a controversial one. Since earliest Biblical times, with the adoption of a "Chosen People" idea, the thought has always been uppermost in theological discussions. With the advance of materialism and the spread of agnosticism and atheism, or even the falling off or orthodox views and general piety this idea has passed more and more into the background. With the revival of religious teachings however, the query has once more been raised.

This question it is expected, Mr. Garber will solve. If not, there may be a solution arrived at in the discussion which will follow.

The annual intercollegiate Menorah debate between Toronto and McGill will be held here shortly. The two men, to represent the Maccabean Circle will be chosen at this meeting. McGill won this last year, and is the best man for this year in order

from his enforced absence and playing a steady dependable game. His shooting is improving all the time and with Quackenbush and Rafalovich to assist him should prove a stonewall to the visiting forwards.

On the other side of the line however they are awaiting the game with quiet confidence. Their team of last year which lost the championship to Queens by one point has lost three men. Potter, Hutchinson and Burgess are the only veteran members. McLean, who will play forward with Potter was a basketball star at Varsity two years ago while Ross, who will probably pair with Burgess at guard is a new man. The Blue and White made a trip to the States but were not very successful. However the same might be said about the McGill team. Which ever team comes through to victory to-night will have to go at top speed from start to finish and the spectators are sure to see a real game. Rooters are needed and No 16 coupon will admit anyone.

MED. ANNUAL DINNER BEING HELD TONIGHT

The Chancellor and the Principal Will Attend

GOVERNORS' NIGHT
Large Number of Professors and Students Have Obtained Tickets

The Mount Royal Hotel to-night is to be the scene of a long-expected function—the annual banquet of the Medical Undergraduates Society. The affair is timed for 7.30 p.m. and is quite informal for all except the graduating classes. Those in charge wish to emphasize the fact that the banquet is not a stiff affair for seniors only, but a get together opportunity for the whole faculty, when staff and students meet together in good fellowship.

The series of these annual banquets stretches back for an embryonic period of forty-three years, a series in which each one has vied for first place with all that went before. This one is expected to eclipse all others, inasmuch as for the first time in history, the Board of Governors will be the guests of honour. Sir Arthur Currie will himself propose the toast to the University, and will be answered by E. W. Beatty, Chancellor of the University. Sir Andrew Macphail, professor of the history of medicine, will respond to the toast to the faculty, proposed by one of the graduating class. It is certain that he will make a speech very worth while hearing.

As this is the first "Governor's Night" invitations have not only been sent to the members of the faculty and staff, but also to the faculties professors. So far eighty have signified their intention to be present.

In view of the special importance of this occasion the committee has spared no pains to make the entertainment end of the affair a success. Willard Crocker and his well-known orchestra will provide the music, and it is definitely stated that a troupe of singers and dancers has been secured from the local theatres to provide the "divertissements" during the progress of the singers.

It is confidently expected that a good number will take advantage of the last moment to obtain tickets. These may be obtained up till 10 a.m.

TWO GAMES PLAYED IN CLASS LEAGUE

Campus Rink Scene of Good Games

Yesterday saw two more of the inter-class hockey league games played off. Dents I and 3 defeated Architecture to the tune of 2-0. In the second game Meds 4 battled with Sci 3 and the medicals managed to route their opponents by a 3-1 score. To-day Med V and Sci IV, and Arts IV and Comm. III will try to overwhelm each other.

The line up for yesterday's games was as follows:—

DENTS	GOALS	ARCH
Omara		Maxwell
Defence		
McNally		Frank Consiglio
Merion		Stewart
Centre		
Beaton		Code
L. Wing		
Orr		Mills
R. Wing		
Key		Gordie Hughes
Subs		
McRae		Gardiner
Adams		Bouillon
.....		Call
.....		Coleman

MEDS	GOALS	SCI
J. Puddicombe		Bauman
Defence		
Harding		Moore
Chalmers (Hall)		Crepeau
Centre		
McCormack		Scanlan
L. Wing		
Meighan		Lister
R. Wing		
Hamilton		Pickard
Subs		
.....		Tyne
.....		Rutherford

special effort will be made to secure that she may retain the cup, and break the tradition of the visitors going off with the cup every time.

The musical part of the programme will be supplied by Miss Hilda Blumer, who will render several piano solos.

HOCKEY TEAM PLAYS QUEEN'S THIS EVENING

Expect Stiff Battle From Tricolour

LEAVE AT TEN
Both Teams Have Won One And Lost One

The Senior Hockey squad leaves this morning at 9 for their first game with Queen's in Kingston. It is their third intercollegiate fixture and they are up against a strong sextet in the Limestone City. Both teams have won one and lost one game so that the victory will mean a lot in the league standing, although Toronto is at present in the lead.

The game should be fast and close. Judging from the showing the contestants have made so far, and if both teams are up to their true form the match should prove well worth watching.

The University of Toronto has already defeated both the teams but in their game last Saturday in Toronto, the Red and White, after a trying week of examinations, were out and exhibited poor form. Now, however, such things being of the past, they are fit as ever and eagerly look forward to the coming struggle. They have firmly resolved to put it over the Kingstons and the whole University is hoping for the best.

The week has been spent in some much needed practice and there have been some very satisfactory improvements. Rog. McMahon and Art Abbott are still showing up well, but Dempsey, McMahon's team mate has not been out so regularly.

The Queens team showed that they still are formidable opponents by their defeat of the University of Montreal last week, by a score of 2-1. Brown, Lindsay and Boucher present a dangerous forward line, while Quins shows up prominently in the nets. Voss also helps considerably at defence and is liable to prove a stonewall block for the McGill forwards.

The game will take place to-night in the new Kingston Arena and the following are expected to represent the Red and White when the whistle blows:—

Goal—Cameron
Defence—McMahon, Hayes
L. Wing—Ar. Abbott
R. Wing—R. B. Bell
Centre—Mickle
Subs—O'Donnell, Paul Smith

McGILL AT LOYOLA RINK TO-MORROW

Intermediate Hockey Game Promises to be Fast

The Intermediate hockey team held its final workout with the seniors last night in preparation for the important game with Loyola this Saturday. The game will be played at the big enclosed Loyola rink at 8.15, and a royal battle can be confident predicted Loyola and McGill tied in their last match. Likewise McGill and U. of M. tied in their match. In the U. of M.—Loyola game, U. of M. came out on top, so prospects look exceptionally bright for a victory over the college that gave us this year's captain of the senior team.

Reid who has been fighting with Cameron for goals on the Senior team will play that position on this occasion. Bobby Bell of Lachine got hurt in yesterday's senior practice and will be unable to make the trip to Kingston. It is hoped that he will be fit by Saturday, when this flashy player will be a strong addition to the team. Paul Smith, who has just been promoted to the senior team expects to be back from Kingston in time to make the trip to Loyola.

The line-up will be as follows:—

Goals
Jerry Reid
Defence
McGerrigle—Paul Smith
Forward
Bobby Bell (Lachine)—Wayland
Dion—Thompson
Subs
one of above forwards
Sullivan—Ronearoli

THE CHEEKY MISS!
He crushed her in his arms. She pushed him away roughly and cried, "Don't try to give me none o' your lip, buddy!"
"No, you can't kiss me. Why, what would father say if he saw you?"
"He's got no license to kiss. I've seen him do the same thing."

MONTREAL, FRIDAY, JANUARY 23, 1925.

A RARE OCCURRENCE

One of the rarest and most majestic pantomimes that have been offered to earthly inhabitants in recent years by the distant celestial bodies, will be staged by the sun and moon on Saturday morning. Metaphorically the sun is the stage, the moon the lone player and a limited section of the earth the audience. So far as we are concerned the theatre is extremely simple; there are no entrances, no exits, no asbestos curtains, no orchestra seats and no "gods". Prince and pauper alike may constitute part of the audience provided they dwell in this select portion of the world, and provided also they arise sufficiently early in the morning and cast their eyes heavenward at the proper time.

The show will begin at nine minutes after eight (within one ten thousandth part of a second or thereabout) when a shadow will seemingly begin to eat up the solar surface, and the performance will end thirty seven minutes after ten (a.m.) when the last vestige of shadow disappears and ceases to deface the glaring sphere.

These time limits have been set, or rather learned, by scientists who by indirect methods contemplate with remarkable accuracy the prospective movements and routes of the stellar bodies. Those who are fortunate enough to reside in this part of the earth will witness the moon gradually obscuring the light of the sun until at twenty minutes after nine, ninety-five percent of the solar light will be intercepted.

The peculiar arrangement of these heavenly bodies effected by mystic forces, happens at rare intervals. The last total eclipse that was apparent here occurred one hundred and eighteen years ago. No one living now will see another of its kind, nor will they see one such as is appearing Saturday, since the next total eclipse is scheduled for the year 2144.

In order to view the eclipse in its totality and, perhaps, glean some further knowledge of the celestial bodies, a group of scientists will gather in a western Ontario town. It is of particular significance to astronomers who are interested in ascertaining the exact diameter of the moon, the nature of the sun's corona, and the path of the moon when it indulges one of its eccentricities, that of wandering away from its customary orbit. It is even hoped by some that careful observance of certain features of the eclipse will lead to the ultimate proof of the Einstein theory. An invaluable service will have been rendered in the interests of scientific knowledge if the occurrence aids in the proof of the theory for considerable doubt is yet prevalent as to its credibility.

THE SIEVE

Hair Cure

"Will this surely grow hair?"
"Will it!" I spilled some on the oil-cloth last night and this morning it was a rug!"—Ed.

Wife: "Didn't I hear the clock strike two as you came in last night?"
Other Hall: "You did. It started to strike eleven and I stopped it so's not to waken you."—Ex.

She says she loves but me alone
And that her love is lasting;
But I fear it reaches a farther zone
And she is just broadcasting.

Music hath charms—so has Cody's
Perfume, Talcum and Face Powder.
I get a big kick every time I kiss
Margaret,
Gee, she doesn't object to mine.

Marian—Why don't you make love
to me when you kiss me?
Marian—Afraid to, it might turn
your head.—Amherst, Lord Jeff.

Frank—My heart is on fire with
love for you.
Francine—Well, don't put yourself
out.—Texas Ranger.

She—Do you always take the other
girls for such long walks?
He—No, it isn't necessary.—Ex.

ODE TO NUXATED IRON.
Curfew shall not ring tonight,
(I think they'll have to scarp her.)
For father had to have his iron
And he went and of the clapper,
—BIG BROTHER.

Cadet—I'm tempted to steal-steal-a
kiss.

His intended—Oh, don't steal; it's
wicked. Let me lend you a few.

George sez: Our idea of extra-
vagance would be to offer a freshman a
penny for his thoughts.

The reason that so many of our
professors are bald is that they
spend so much of their time splitting
hairs.

The fat one when asked to climb
himself in gym, has the advantage
over most of us skinny guys. He only
has to go as far as his lowest chin!

—Ex

Were you ever in Holland?
No, but I've been in Dutch.

"That's a new one on me," said
Mother Earth as they broke the
ground for another skyscraper.

No girl now

Murries a man
For better or for worse.
She marries him
For more or less.

Cousin, Hiram: Is that a new ball
clock over there?
Wife of deceased: Sh-h. That's
poor old John. I knew the room
would be crowded so I turned the
coffin on end.

ECONOMICS!

What is a pedestrian?
Sir, a pedestrian is the raw material
for accidents.

Student: (Knocking at door 3 a.
m.) "Does the Dean live here?"
Dean's wife: (from upstairs win-
dow) "Yes, bring him right in the
front door."

VARSITY vs. MCGILL
Coupon No. 16.

CLASS HOCKEY

The following is a revised schedule of practice hours on the Campus Rink. It will be noticed that a few alterations have been made to the one published Tuesday last.

MONDAY

10-11 Vacant.
11-12 Vacant.
12-1 Dent. II.
2-3 Arts 4.
3-4 Vacant.
4-5 Vacant.

TUESDAY

10-11 Vacant.
11-12 Vacant.
12-1 Med. 2.
1-2 Arts 3.
2-3 Med. 3.
3-4 Vacant.
4-5 High School.

WEDNESDAY

10-11 Vacant.
11-12 Law 2 and 3.
12-1 Vacant.
2-3 Vacant.
3-4 Vacant.
4-5 Med. I.

THURSDAY

10-11 Vacant.
11-12 Law I.
12-1 Vacant.
2-3 Comm. 2.
3-4 Comm. 3.
4-5 High School.

FRIDAY

10-11 Comm. I.
11-12 Dent. I and 3.
12-1 Vacant.
2-3 Arts 2.
3-4 Vacant.
4-5 Arts I.

SATURDAY

10-11 High School.
11-12 Vacant.
12-1 Sci. 4.
1-2 Sci. 3.
2-3 Sci. I.
3-4 Theol.
4-5 Med. 5.
5-6 Sci. 2.
6-7 Vacant.

No further alterations will be made in this schedule except in very necessary cases. There are still two classes who have not obtained a new practice period. They are requested to do so immediately by getting in touch with the manager at the Union to-day-at 5 o'clock.

CONSERVATORIUM OF MUSIC

The group photograph of the Undergraduates will be taken at 1 p.m. on Saturday January 24, please make it a point to be present and get into Old McGill 1926.

CHEMICAL SOCIETY

The next meeting of the Chemical Society will be held on Friday Jan. 23rd at 5 o'clock in the Chemistry building. Mr. St. G. Sproule will speak about "New Pyrometric Equipment in the Department of Metallurgy".

All those interested are invited to attend.

ARTS '27

Tickets for the Arts Dinner are now on sale. See Jack Duckworth or Lawrence Hart without delay.

ATTENTION RUGBY

Will all those men who received Certificates of Award for first grade colours last year, and who played at all this year, please leave their Certificate in the Athletic Manager's office for further entry.

C. COPE, Mgr.

M.S.P.E. — MACDONALD BASKETBALL

The third M.S.P.E. basketball match of the season will be played at Macdonald College Thursday Jan. 29th, at 5 p.m. The train will leave the Bonaventure Station at 4 p.m.

JUNIOR LEAGUE POSTERS

A prize of \$30 has been offered for the Junior League of Montreal for the best poster to be used for the purpose of bill boards, advertising their forthcoming revue "Footlight Fancies".

All competitors should bear in mind that the posters must be in black and white and one flat color, and must embody the following: "The Junior League of Montreal presents Footlight Fancies, a Musical Revue Orpheum Theatre, April 21st-25th."

All posters should be sent to the Junior League Office, Room 205 Medical Arts Building, not later than March 2nd. For further information please phone Miss Mary Macintosh, Westmount 3936.

The width of the posters should equal to 21-2 times the length.

MCGILL BIOLOGICAL SOCIETY

The next regular meeting of the Biological Society will be held on Friday at 5 p.m. in the Biological Bldg. The meeting will be addressed by Sir Andrew Macphail on "The History of the Idea of Evolution." All those interested are cordially invited to attend.

NOTICE

Photographs of all societies should be taken as soon as possible in order to ensure their inclusion in the Annual. Appointments can be made by telephoning to Notman's. Seven dollars will be collected at the time of sitting.

LOST

Fraternity pin, gold with black shield, Flinder kindly phone. Plat. 0474.

MACCABEAN CIRCLE

The next meeting of the Maccabean Circle will be held on Sunday, January 25th at 3 p.m. in the McGill Union.

Mr. Michael Garber, B.A., B.C.L., will speak on: "Have the Jews a Mission?" Miss Hilder Blumer will render several piano solos.

CLASS GROUPS

The following class groups are in the hands of the Annual Board, and may be obtained at the Board room any day between one and two or between five and six o'clock. The reduced price of ONE DOLLAR a copy for these pictures only holds good until January 25, so that it will be necessary to get all orders in before that date. Cash with order.

Sci. '25, '27, '28. Law '25, '27, Arts '28, Dent. '28, Med. '28, '25, Pharmacy.

SICK STUDENTS

Out of town students, confined to hospitals or their rooms will be sent flowers by the Ladies' Auxiliary. If the names are left at Strathcona Hall or with Mrs. Willey, Up. 3201.

BAND PRACTICE

Another date to be added to the program of the Band is Feb. 11th. This is the night on which the band will assist the Musical Association in Broadcasting from the Northern Electric Station. Further information will be given out at the next practice.

WRESTLING

Practice Monday Wed. and Friday 5 p.m. in Strathcona Hall.

BOXING

To-day and Saturday 5 o'clock Molson Hall.

LOST

Waterman fountain pen, with initials V. R. Please return to the porter at R.V.C.

FRESH-SOPH. BASKETBALL

The following is the schedule for this week's interclass games. Managers are asked to see that their teams are on time as much valuable time is wasted waiting for men.

Fri. Jan 23

6.30—Comm. I vs. Pharm. I.
7.15—Dents. II vs. Arts II.

Mon. Jan. 26

6.30—Dents. I vs. Sci. I.

SOCCER CLUB

All members of the 1st and 2nd teams possessing soccer jerseys and stockings are requested to turn these in immediately to Mr. Hay Finlay, Molson Hall.

LOST

A white woolen toque with red and black border. Name of owner "Donall" sewn in red wool inside. Finder please leave with porter of Arts Bldg.

GYM CLUB

There will be no meeting on Friday Jan. 23rd on account of the basketball game.

SKIERS

The Winter Outing Club is endeavouring to make arrangements with the Montreal Ski Club whereby anybody wearing the badge of the outing club may have the use of the Club House and of the jump hill for practice. Everyone now a member or intending to join should sign their name on the sheets placed on the notice boards. We are asked to show a certain standing of membership in the Montreal Ski Club and prompt compliance with the request would be much appreciated.

Outing Club badges may be had from:—
W. Hurd, Arts III.
T. M. Brown, Med. I.
Percy Costigan, Science II.
Lawrence Hawley, Med. I.
HOWARD L. ELLIOT, Mgr.

ROWING CLUB

The executive of the Rowing Club wish to make it known that it is pleased to place the bathhouse at the disposal of any members of the club who wish to organize a sleigh-drive providing one of the executive is present. Anyone desiring to do so however, is requested to notify the executive beforehand.

ARTS DINNER

The Arts Dinner will be held at the Mount Royal Hotel, on Thursday, January 29th, at 7.30. Tickets may be had from the following: R.V. Fortune, M. Lydstone, C. B. T. Jones, Lawrence Hart, Bill Murchison.

ARTS '26

There will be an important meeting of Arts '26 Friday at 1 P. M. in Room 5 of the Arts Bldg.

DATES IN HAND BOOK

Some of the Dates of Activities published in the Hand book are not final as alterations have been made.

COM AND TECH GRADUATES SOCIETY

The Commercial and Technical High School Graduates' Society, extends a cordial invitation to all graduates of the High School, to meet their former class-mates and friends, at a Social Evening to be held on Sat. Jan. 31st, 1925, at 52 Sherbrooke St. West. Dancing will commence at 8.15 P. M. and the executive has provided ample refreshments for all those who desire to spend an enjoyable evening.

MEDICAL UNDERGRAD.

The regular meeting of the Medical Undergraduate Society will be held Monday evening at eight o'clock in the New Medical Building. The address will be given by Dr. C. B. Kennan on "Surgery and Surgeons". A large attendance is expected. Refreshments will be served after the meeting.

ARTS '28

There will be a hockey practice on Friday at 4 p.m. on the campus rink. The following are asked to turn out:—J. Dixon; J. Diplock; E. Ebert; W. Thomas; E. Marston; A. W. Jones; H. Mackay; G. S. Pitcairn; L. Lighthall; A. Kirschberg; W. West Macfarlane; Romulo.

Anyone else who thinks he can make the team, is welcome.

(signed)

RAY Caron
(manager)

UPPER CLASS BASKETBALL

Any Years wishing to enter teams in the Upper Class basketball play-off, should hand their entries in to Mr. Van Wagner, or J. R. Frith, Science '27, before Wednesday January 28th. Practice hours may be obtained from Mr. Van Wagner. No entries will be accepted after the above date.

DELTA SIGMA SOCIETY

There will be a very important meeting of the executive on Monday Jan. 26th at 1 o'clock in Room 2 R.V.C. Will every member of the executive please try to be present especially the Year Reps.

R.V.C.A.A. EXECUTIVE

The picture of the A.A. Executive will be taken at 1 p.m. on Tuesday January 27th at Notman's

RED AND WHITE REVUE EXECUTIVE

The following are asked to turn out to a meeting of the Theatre Night Executive to-night at 5.00 p.m. Sid. Pierce, Bob Jamieson, Basil McLean, Willard Crocker, Jack Classco, J. S. Browne, Gordie Hughes, Miss Greene, Miss Tatlow and Phil Gross.

R.V.C. A.A.

A meeting will be held on Monday Jan. 26th, at 1 p.m. in the Common Room.

Business:—Awards and Hockey.

RIFLE ASSOCIATION PICTURE

Will all members of the Rifle Association who desire copies of the Picture, or who wish to see the proofs, please apply before Mid-day on Saturday to C. H. Herbert, Comm. '27.

PAPERS ON LAENNAC AND MEDICAL HISTORY IN FRENCH CANADA

Two papers—on "Laennac" by K. S. MacLean, M.D., '26, the other on the "History of Medicine in Early French Canada," by W. J. H. Abey, M.D., '26—were read at the regular meeting of the Osler Society on Tuesday. There was a good attendance including Dr. F. J. Shepherd, Emeritus Dean and Professor of Anatomy; Dr. Horst Oertel, the honorary president; Prof. F. E. Lloyd, Dr. Campbell Howard and Dr. L. J. Rhea. The president, L. F. McLean, presided.

Dr. Rhea drew the attention of the members to a memorial volume to Sir William Osler which is being published by the International Association of Medical Museums. This letter will include letters from men who knew Sir William and who worked with and appreciated him. It will include the various periods of his career. There will be only one edition, the price being ten dollars but medical students may obtain copies at half price, five dollars. It will be an attractive volume and all details and application forms may be obtained from Dr. C. F. Martin, Dean of the Faculty of Medicine.

In the first paper of the evening, K. S. MacLean sketched briefly the early life, the family history, the poor health and the financial difficulties of Rene Theophile Laennec in 1782. However, he obtained a good classical education at Nantes and early became interested in biological studies. Proceeding to Paris Laennec attached himself to the clinical school of the great charity hospital where Corvisart had revolutionized the study of medicine. During the three years of his attendance there he drew up minutes histories of four hundred cases which served as a foundation of his future researches and study. At this time he contributed several important papers to the Journal of Medicine and received several welcome money prizes.

After graduation in 1804 Laennec was chief editor, for five years, of the Journal of Medicine and for two of these years he lectured in pathological anatomy. His most lasting contribution to the study of pathology was his method of correlating clinical with post mortem findings. His contributions at this time included studies in peritonitis, on the capsule of the liver, pathological anatomy, melanosis, carcinoma of the chest, a new species of hernia besides articles on hydatids, encephaloids, cirrhosis, diseases of the heart and hydrocephalus.

He kept careful records and followed the course of each disease very carefully. If any new signs appeared these were duly added to the case report. If the patient died the autopsy findings were taken down and if any correction of the diagnosis was necessary it was made on the spot.

Up to 1816 when Laennec was appointed visiting physician to the Necker Hospital the only means of examination of the chest were percussion to limited extent, percussion and immediate auscultation, ear applied directly to the chest. It happened about this time that a woman suffering from the general symptoms of diseased breast was admitted to the hospital. Because of the great degree of fatness the usual aids were of little avail and casting about for a means to overcome the difficulty Laennec thought of a well known fact in acoustics. He rolled a quire of paper into a kind of cylinder and applied it to the woman's chest putting his ear to the other end. He was not a little surprised and delighted to find that he was able with this crude device to hear the heart sounds more clearly and distinctly than he had ever heard them before.

From then on he worked feverishly and in his own words "was able to discover a new set of signs of disease of the chest for the most part certain, simple and prominent and calculated to render the diagnosis of diseases of lungs heart and pleura as decided and circumstantial as the indications furnished to the surgeon by the opening of a cavity and introduction of the finger. For three years Laennec worked like a fanatic and produced his book, published in 1819 "Treatise on Mediate Auscultation" which in the words of Sir William Osler "laid the foundation not only of our modern knowledge of tuberculosis but of modern clinical methods. Many of the clinical terms such as auscultation, rales, fremitus, pectoriloquy, bronchophony, egophony, puerile breathing, stethoscope were first used in this treatise by Laennec.

The original stethoscope was a wooden cylinder twelve inches long divided in the centre by a screw to fit more portable. It was pierced in the centre by a tube, terminating at one end by a funnel like cavity.

After the publishing of his book Laennec's health broke down and he had to retire in 1820 to his beloved Brittany when in two years his health was restored by the outdoor life.

In 1823 he returned to Paris where he succeeded his master, Corvisart as Professor of Medicine in the College of France. He undertook the review of his work. The whole scheme was changed. The process was revised. The method was synthetized, each disease being described in detail in

respect to diagnosis pathology and the most intelligent treatment. This work has been called the most important treatise on diseases of the thoracic organs ever written.

Laennec's health again failed and he retired again to Brittany where he died in 1826.

Dr. Campbell Howard when speaking on the paper, produced one of the original editions of Laennec's work, a gift to him from Sir William Osler. Dr. Shepherd recalled the time when the medical men of Montreal used to carry their stethoscopes in their silk hats. He added that he had in his possession the stethoscope used by Dr. Howard's father, Dr. Robert Palmer Howard, who was Professor of Medicine at McGill many years ago.

The second paper on the "History of Medicine in Early French Canada" by W. J. H. Abey, also proved very interesting. The first record of any disease comes to us from the pen of one of Cartier's crew during his second visit to Canada in the winter. The disease was scurvy and twenty-five of the crew were carried off by its deprivation. At one time only three or four were well enough to take care of the sick. From the pen of this member of the crew we have the record of the first autopsy performed in Canada on the body of one Philip Rougenot. Fortunately Cartier learned a remedy from the Indians in time to save the remainder of his crew.

The second medical man in Canada was Louis Hebert, an apothecary, who accompanied Des Montres, to the isolated settlement at Port Royal in 1604. A surgeon named Bonnerme accompanied Champlain to Quebec in 1605. He was one of the six men who were accused of plotting against the life of Champlain but was able to prove his innocence. He died the following winter of scurvy but was afterwards successful in combating the disease by a remedy learned from the Indians. Another surgeon to settle in Quebec was Adrian Duchesne who practiced there from 1618 to 1629 when the town was captured by the British. Upon its restoration to France he received a grant of land which he afterwards sold to Abraham Martin. This land is now known as the Plains of Abraham. Another surgeon of Champlain's time was Robert Gaffard, Sieur de Beauport.

The first hospital in Canada was the Hotel Dieu at Quebec founded through the gifts of the Duchesse d'Algonquin and her Uncle, Cardinal Richelieu. The first administrators were Mother de Saint Ignace, a woman only twenty-nine years of age, endowed with remarkable talents and courage and two assistants, Mother de Saint Bernard and Mother de Sainte Bonaventure. This first hospital was of wood only fourteen feet wide and soon proved too small for the needs of the settlement. A new building was begun in 1654 and a second ward added in 1672 and still another in 1696.

Shortly after the above a second hospital of the same name was established in Montreal then Ville Marie by Mlle. Jeanne Mance in 1641. Funds for this undertaking were provided by Mme de Bullion. The first hospital was a building 60 by 24 feet containing a chapel and two wards, besides kitchen and living quarters. It was amply supplied from France with all necessities and had oxen cows and sheep attached. The establishment was in constant peril from the Iroquois but Mlle. Mance and her associates refused to abandon it and take up the work in safer parts of the country—then in spite of financial reverses due to loss of funds invested in France. The hospital was twice destroyed by fire.

The paper traced the vicissitudes of the practice of medicine through the years to the surrender of Canada to the British. Many epidemics of an eruptive nature took toll on the inhabitants of the colony. Pestilential fevers were rife. In 1756 over 600 fever stricken patients were admitted to the wards of one of the Quebec hospitals.

After this paper Dr. Shepherd spoke. He said he had never before heard so much of the early history of medicine in Canada but he was familiar with more recent history particularly that of the Medical Faculty of McGill. Dr. Shepherd told of the founding of the (Montreal) Medical Institute which later became the Medical Faculty of McGill University. The two notable things about which school were that for the first time in America students were admitted to the wards of the hospitals and there was a four year course of six months a session.

Previously he courses in the United States had been two years course of four months each. All the original lecturers were Edinburgh men.

SKIING AND SNOWSHOEING ON SATURDAY

McGill Men to Show Winter Sport Ability

SKATING TRIALS
Trials For Dartmouth Meet For Skaters, Skiers And Snowshoers

Everything is pointing to a successful Winter Sports Meet on Saturday. All plans for the meet have been completed and the officials are chosen. The weather is the only uncertain factor, but it is expected that a lower temperature will prevail. The snow is in good condition and the trails for the cross country races are interesting. The marking will be completed to-day.

Below is the list of the events and the time and place. All these features must be run off on the one day so as not to interfere too much with lectures. Entries will be taken at the time of the race, but contestants must be on time so that lots may be drawn and the races be run off without delay.

SNOWSHOE DASH
Time 10.00
Place McGill Campus
Distance 150 yards
SKI CROSS COUNTRY
Time 10.30
Start Cor. Peel St. and Pine
Finish McGill Campus
Distance 6-8 miles

SNOWSHOE CROSS COUNTRY
Time 11.00
Start McGill Campus (meet there about 10.45 A.M.)
Finish McGill Campus
Distance 5 miles

SPEED SKATING
Time 2.00
Place M.A.A.A. track
Distance one-half mile
SKI PROFICIENCY
Time 2.00
Place Will leave M.S.C. house at Cote des Neiges Hill at 1.45 P.M. to go to proficiency hill

SKI JUMPING
Time 2.45
Place Cote des Neiges Hill (Guy street car)

FIGURE SKATING
Time Sat. 10.00 P.M.
The official umpire for the meet will be Colonel W. Bovey
Official starter—Mr. F. Van Wagner
Official Timers—Mr. F. Fletcher H. Elliot.

No explanation is necessary regarding the races of the morning. Those wishing to see the figure skating at the Winter Club on Drummond Street should carry with them their handbook with their tickets from the Athletic Board for identification as Students of McGill.

Contestants in the speed skating should be at the M.A.A.A. rink in ample time to change and be ready for the race at the time stated. Those wishing to see this event should also provide for identification.

It is absolutely necessary that those who wish to enter in the Ski Proficiency and those who wish to see it should be ready to leave the Montreal Ski Clubhouse at 1.45 p.m. sharp. The group will go over into the cemetery and perform on one of the excellent slopes facing the jump. It will be necessary to have skis or snowshoes.

The jumps which will undoubtedly attract the most attention will commence at 3 p.m. Students may exchange ticket number 22 at the Athletic Office in the Union for a tag which will admit them free of charge to the grounds. This must be done before the office closes to-day.

THE SCRUPULOUS LOVER
If gleam of stars and moon and sun
Could e'er be blended into one;
Would they be brighter than your eyes,
Whose brilliancy I highly prize?
They would be loved, I surmise.

Could bolted door or prison bar,
Or deserts stretching wide and far,
Keep me from you, so sweet, so good,
Could distance null my hardship?
Dear one, I must confess it could.

—Ex.
Prof. (to student entering ten minutes late.)
When were you born?
Student—The second of April, sir.
Prof.—Late again.

—Ex.
A little hairy tonic, sir?
Yes, I'll take a glass.

8 and 10.30 but the theatre Royal then very popular, was next door and quite often the work was adjourned early to enable the students to attend the theatre orchestra seats at that time were 50 cents students being admitted at half price. Occasionally as a diversion the tables were pushed back and ladies were invited to dance.

An interesting fact told was that the students used to pay the professor twelve dollars as the fee for each course. When he had collected for this made up most of the professor's salary. Dr. Shepherd's reminiscences were listened to with a great deal of appreciation.

Alone!
It was only on old beer bottle,
That was tossed in by the tide;
But it carried a sad, sad message
On a paper found inside.

That paper that it carried,
Had these sad words written on:
"He who finds this old beer bottle
Will find the bear all gone."

—Ex.
Before Vacation
Little bank roll, ere we part,
Let me hug you to my heart.
For a year I've clung to you—
I've been faithful, you've been true.

Little hand roll, one glad day
You and I both went away
To a gay and festive spot:
I've come back—but you have not!

—The Torch.
To An Old Friend.
I look upon you, sitting silent there,
With round, good-natured, thinly
velled face,

Your perfect form so dainty and so
fair,
Your arms which charm with slowly
moving grace.

The time's not yet, when I may be so
bold
To move the veil from off your
visage sweet;

And in mine own your shapely hand
to hold,
And race with thee and catch the
hours fleet.

Perchance, so that I may your face
unlock,
And set you right, you'll soon run
down, oh clock.

—Saskatchewan Sheaf.

Stude: "Know what a zebra is?"
Second: "No, what is it?"
First: "Just a sport model Jack-ass."

new stand Doushkeess leads in Arts.
Pangman in Science, Knece in Com-
merce and Chrestol in Law. The
scores of the bouts are given below
(the figures indicate hits against):

ARTS

Marchand 2 vs. Shepherd 5.
Kurie 0 vs. McKergow 5.
Kurie 1 vs. Lande 5.
Doushkeess 2 vs. Kurie 5.
Lande 1 vs. McKergow 5.
Doushkeess 0 vs. McKergow 5.
Doushkeess 0 vs. Lande 5.
Lande 2 vs. Casgrain 5.

SCIENCE

Pangman 4 vs. Maxwell 5.
Pangman 4 vs. Coleman 5.
Maxwell 1 vs. Coleman 5.
Hollbrooke 4 vs. Maxwell 5.
Coleman 1 vs. Booth 5.

COMMERCE

Knece 9 vs. Camerlain 5.
Knece 1 vs. Roncarelli 5.
Roncarelli 1 vs. Camerlain 5.

LAW

Chrestol 3 vs. Spector 5.

NOTICE

The executive of the Winter Out-
ing Club would be obliged if some
men interested in the club and who
are not taking part in the events of
the day would turn out at ten
o'clock on Saturday morning at the
campus. No matter how well marked
a trail may be there are always
places where it is very helpful to have
direction given. It would be great-
ly appreciated if some would be there
in skis ready to help the officials on
the trail.

HOWARD L. ELLIOT, Mgr.

MED. '25

Players reminded of game with
Science 4 at 5.10 to-day.

ARTS '25 ATTENTION

Graduation pictures will be taken
at Notman's beginning with Monday
January 26th.

WHITE STAR-DOMINION LINE

More Cars

While you have been away for your vacation, and have been busy writing examinations we have been adding to our already large fleet of taxicabs. The new cars are large six cylinder machines, of the finest appearance and they are comfortable to the nth degree. There is no crowding in a Kennedy Taxi. These fine new cars have been added to our fleet to supply the ever-growing demand for Kennedy's. They have been built for service as well as comfort and appear-
ance, and of course they are Made in Canada. If you demand some-
thing better than the ordinary,
call a Kennedy when you need
a taxi.

And at the Union, after every
dance, a Kennedy agent is on hand
to see that you are properly looked
after—that a pleasant evening is
pleasantly ended.

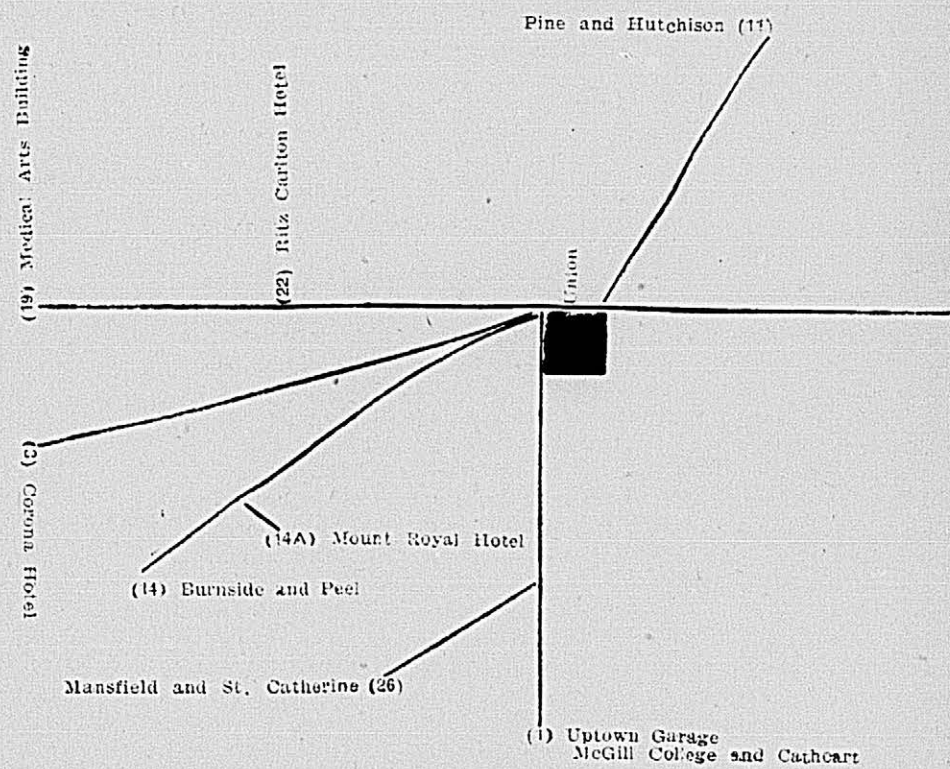

LIMOUSINE SERVICE

There are occasions which demand the
privacy of a limousine. It often happens
that you want something more than a taxi.
A large fleet of limousines, operated by
Kennedy Taxicab Limited is at your command.
It costs no more to ride in a limousine and
Kennedy's is the only taxi company in the
city offering limousine service. And these
cars are made in Canada of course. Specify
"limousine" if you desire one.

KENNEDY TAXIS LIMITED

is in the best position to supply the McGill Union with taxi-service.
Eight service stations within a few moments run of the Union and the
Campus, do away with all possibility of delay. And of course there are
other Kennedy stations located at convenient points throughout the city,
and at the more important public buildings.

Time is money - - - - - Why waste it?

KENNEDY TAXIS LIMITED
